- Node
- Express
- MySQL, Sequelize
- MongoDB, Mongoose
- REST
- GraphQL

Projects

Tech-Blog
Link to GitHub: https://github.com/ning1604/Tech-Blog
Link to deployed application: https://arcane-inlet-77522.herokuapp.com/

- A CMS-style blog site where developers can publish their blog posts and comment on other developers' posts.
- Built following MVC paradigm using Handlebars.js as the templating language, Sequelize as the ORM, and the express-session npm package for authentication.

Weather Dashboard
Link to GitHub: https://github.com/ning1604/Weather-Dashboard
Link to deployed application: https://ning1604.github.io/Weather-Dashboard/

- Weather dashboard application that allows users to see the weather outlook for multiple cities so that they can plan a trip accordingly.
- This application uses Open Weather One Call API to retrieve weather data for cities and stores recent searches in local storage.

Cocktail Recipe Finder – Group Project
Link to GitHub: https://github.com/dark40/cocktail-recipe-party-activity
Link to deployed application: https://dark40.github.io/cocktail-recipe-party-activity/

- Users will be able to search for cocktail recipes within a database or simply choose one from the gallery of randomly generated cocktails. Furthermore, alternating jokes will be displayed along with the recipe so that users will be able to read out jokes and keep the party going.
- Main role was to develop front-end side of application along with search bar feature.
- Technologies used includes The Cocktail DB API, Jokes API, Bulma CSS framework, and JQuery.

Experience

Sales Assistant
Sunglass Hut Knox   2022 – Present

Casual employee working as sales assistant at Sunglass Hut Knox. Involves providing face-to-face customer service, processing sales, and managing stock.

Education

Certificate in Full-Stack Web Development
Monash University   2022 - Present

A 24-week professional development short course with a focus on gaining skills in front-end and back-end technologies including HTML, CSS, JavaScript, jQuery, Bootstrap, Express.js, React.js, Node.js, Database Theory, MongoDB, MySQL, Git, and more.
